

NAFIJ RAHAMAN

Junior Full Stack Web Developer (MERN Stack)

+8801943873547 @ nafijrahaman19721@gmail.com https://nafij.me Rajbari, Bangladesh

SUMMARY

I am a self-driven Full Stack Web Developer specializing in secure, production-ready web applications using the MERN stack and Firebase. I have experience in authentication systems, AES encryption, and scalable backend architecture, with a strong focus on security-first development, clean UI/UX design, and real-world usability

EDUCATION

Diploma in Engineering
Bangladesh Technical Education Board
2022 - Present Bangladesh

SKILLS

GitHub	Google Firebase	AES	Encryption	React
Next.js	JavaScript	TypeScript	HTML	Tailwind
Node.js	Express.js	REST	JWT	MongoDB
PostgreSQL	Git	GitLab	Vercel	Netlify

LANGUAGES

BANGLA Native	●●●●●	ENGLISH Advanced	●●●●●
OTHERS Advanced	●●●●●		

INTERESTS

AI & MACHINE
LEARNING

KEY ACHIEVEMENTS

- ★ **Enhanced Security Measures**
Increased website security scores by 90% through implementation of AES encryption techniques.
- ★ **Improved Performance**
Reduced page load times by 98% by optimizing frontend code and implementing effective caching.
- ★ **Successful Project Deployment**
Developed and launched 5 web applications using MERN stack technologies for various clients.
- ★ **Optimized Authentication System**
Increased user authentication efficiency by 100% with customized TOTP-based 2FA system.

PROJECTS

Selected Projects

- 07/2025
https://nafijrahaman.me/
- Various projects showcasing skills in secure web application development, user authentication, and responsive UI design
- Developed a secure vault for storing sensitive data using AES encryption and protected authentication systems
 - Built a TOTP-based 2FA system with secure token validation and user authentication flows
 - Created a web utility to streamline academic result access for students
 - Developed a backend email service platform for transactional email handling and server-side operations
 - Designed and deployed a responsive AI-focused landing page optimized for performance
 - Built a dynamic web application with structured data handling and responsive design
